Frontloader Washer YM-1250P - Used

Why Choose a Used Cleaning System

- Significantly lower investment compared to a new system
- Supports responsible production and procurement
- Fast delivery and commissioning
- Stable and proven operation
- Reduces the need for manual labor
- Easy integration into existing production lines

Note

KSN acquired this frontloader cleaning system from an overseas company.

Standard Equipment

- ABB and Schneider electrical components
- Industrial pump (3 hp)
- Stainless steel construction
- Automatic temperature management
- Fully insulated construction
- Timer function (0–30 min.)
- Automatic level and pressure monitoring

An Environmentally Responsible Choice

- Reuse of industrial machinery
- Recyclable materials
- Low energy consumption

Optional Features

- Oil separator
- Filtration system
- Automatic chemical dosing
- Adjustable basket rotation
- Remote access and service via network connection
- Service and spare parts agreement

Condition and Preparation

- Machine inspected and tested
- Ready for integration into existing production lines
- Customization options available
- Service and support offered

Technical Data

General

Length	1250 mm
Width	1250 mm
Height	1700 mm
Power supply	380 V / 3-faset
Basket diameter	1100 mm
Basket capacity	440 kg
Material	Stainless steel

Washing zone

Tank volume	180 L
Temperature	0–60°C
Heating power	12 kW

Price: €8,700
